Company

ecoplanet provides solutions for the Aromatherapy Cosmetic Users and Application Centers in close cooperation with our customers and partners for the need of products and applications.

Our customers profit from our specialist strategy by gaining quick access to high level Aromatherapy specialist knowledge, excellent support and customized integrated solutions.

Integrated Approach

Integrated and collective Approach is the concept that comprises how we work with our customers. It means that our customers can benefit from *ecoplanet's* expertise on many steps in the value chain, from product development to final production, marketing and sale.

Application and industry expertise

ecoplanet follows a specialist strategy, which gives us a deeper understanding of our customers' processes and the markets they operate in. By focusing on our strengths - and not diluting our competencies - customers get the most innovative and effective solutions. By working with a specialist partner our customers benefit from:

- Quick access to specialists with vast application knowledge
- Superior understanding of markets and needs
- Innovative product and ingredient solutions backed by extensive R & D studies
- Individually adjusted solutions
- Ethical practices and use of natural ingredients.
- Offering entire range of cosmetics under one roof.

Recent Challenges

ecoplanet has chosen the integrated working partnership approach as a response to new requirements in the Wellness Industries. In more and more segments, there is an increasing demand for a flow of new and existing product variants. Today many consumers are looking for an experience - not just a known product -

Our success as a global Aromatherapy Cosmetic Manufacturer and supplier is therefore no longer just a matter of quality ingredients and technology alone. Creativity and knowledge of product development, application, production processes and consumer trends in our customers' industries are just as important.

Our Vision

Our Vision is to improve the quality of life of people by bridging between nature and mankind.

All our actions and all our products are aimed at fulfilling this Vision. The competences we have in *ecoplanet* should be aimed at driving this overall passion.

We believe in the consumers' right to choose freely and have the final responsibility for their own health. We also respect the great variation in aroma and perception of cosmetics quality throughout the world.

We intend to be the preferred source of Aromatherapy products supply and associated services within our business areas globally.
